SUMMARY

Aspiring Software Development Engineer experienced in building full-stack applications using MERN and PERN stacks. Solved 280+ **LeetCode** problems with strong fundamentals in data structures and algorithms. Interested in scalable backend systems and developing real-world web products end-to-end.

SKILLS

- Programming Languages: C, C++, Python, Java, JavaScript
- Frontend: React.js, Next.js, HTML, CSS, Tailwind CSS
- Backend: Node.js, Express.js, REST APIs
- Databases & Cloud: MongoDB, PostgreSQL (Neon), MongoDB Atlas, Vercel, Render
- Data Structures & Algorithms: 250+ LeetCode problems; strong problem-solving in C++ (Graphs, Trees, DP, Recursion, etc.)
- Tools & Version Control: Git, GitHub

EDUCATION

- Computer Engineering | Vellore Institute of Technology, Amaravati. (Sep'23-May'27)
- XII(CBSE) | Narayana School, Haldia 85% | 2023
- X(CBSE) | Narayana School, Haldia 92% | 2021

PROJECTS

◆ Greencart — Grocery Delivery Web App | MERN

- Developed a full-stack grocery delivery platform enabling users to browse products, manage carts, and place orders online.
- Implemented JWT-based authentication with role-based access for Admin and Users.
- Integrated Stripe payment gateway with webhook verification for secure checkout.
- Built RESTful APIs for products, users, orders, and payments using Node.js, Express, and MongoDB.
- Developed an Admin dashboard for product CRUD, inventory management, and order tracking.
- Integrated Cloudinary for image uploads and deployed using Vercel + MongoDB Atlas. **Link**

◆ PingUp — Social Media Platform | MERN

- Built a full-stack social networking platform where users can create posts, share stories, connect with others, and chat in real time.
- Implemented Clerk authentication with secure session management and protected routes.
- Developed real-time chat system using Server-Sent Events (SSE) with instant message updates.
- Built social features including posts, likes, stories, followers, and connection requests.
- Integrated Redux Toolkit for global state management and ImageKit for media optimization.
- Designed a fully responsive UI using Tailwind CSS with real-time notifications. **Link**
